1. Overview – This is the UNL Police Building Emergency Action Plan

2. Building Description

3. Building Emergency Action Personnel
UNL is committed to protecting the welfare of its community members and safeguarding our vital interests – reputation, research and property. For this reason, UNL has established guidelines for Building Emergency Planning. As Building Emergency Personnel, you play and important role in the implementation and effectiveness of this guidance in your building.

Deans/Directors
- Deans/Directors select a Building Emergency Coordinator (BEC) and give them the authority to implement all phases of the plan.
- For shared buildings, Deans/Directors should decide who is best suited to be the Building Emergency Coordinator.
- Building Coordinators coordinate a number of Floor Coordinators within their facility.
- Identify alternative coordinators if the BEC is away from campus

Building Emergency Coordinator
- Implement this plan with the assistance of University Police
- Ensure that building occupants receive training in the emergency plan
- Conduct periodic emergency drills
- Revise plan as necessary
- Response Functions:
  - Determine, if possible and safe, the nature of the incident, location of the incident, and whether hazardous materials are involved.
  - As it becomes available, provide information to the assembly area about the nature and status of the incident.
  - Serve as point of contact for UNL Police for information about the location, nature, and status of the incident.
  - Once the incident has been made safe by emergency responders, notify occupants they may safely re-enter the building.

Floor Coordinators
- Floor (or Area) Coordinators will assist in the evacuation and shelter-in-place of their assigned floor, with the goal of ensuring all occupants have an opportunity to get to safety.
- To ensure coverage, each floor should have multiple floor coordinators
- In the absence of the Building Emergency Coordinator, a floor coordinator can be designated a building emergency coordinator.
- Response Functions:
  - Provide direction to occupants.
  - Ensure that anyone needing assistance is being helped
  - Share information with UNL Police about the location, nature, and status of the incident

4. Emergency Actions
For additional information about emergency types and actions to be taken for emergency see: http://emergency.unl.edu online and the Building Emergency Personnel Guidance for Incidence Response in the back of this document.

Evacuation Planning
An evacuation is the quick exit of occupants from a building. While evacuating, it is everyone’s responsibility to make sure no one is left behind.

- Identify Exit Routes
  - Two for each floor
  - Exits are clearly marked
- Identify Assembly Areas
  - Outside the affected building in a safe and convenient location
  - Alternate assembly areas - the emergency may dictate changes in the assembly areas

Shelter-in-Place Planning
There may be emergencies that arise that do not give individuals the opportunity to safely evacuate. For these emergencies, sheltering-in-place may be necessary. Examples of emergencies where the shelter-in-place option may be preferred include:

- Severe weather
- Active shooter/active threat situations
- Outside hazardous materials release

Shelter Locations

<table>
<thead>
<tr>
<th>Emergency</th>
<th>Potential Shelter</th>
</tr>
</thead>
<tbody>
<tr>
<td>Tornado</td>
<td>1st Floor Interior Hallways, Restrooms and Stairwells</td>
</tr>
<tr>
<td>Fire</td>

</tr>
</tbody>
</table>

6. Assembly Areas
List assembly area locations:

<table>
<thead>
<tr>
<th>Assembly Area</th>
<th>Location</th>
</tr>
</thead>
<tbody>
<tr>
<td>Primary:</td>
<td>Field East of the Devaney Sports Center</td>
</tr>
<tr>
<td>Alternate:</td>
<td>NE Parking Lot</td>
</tr>
<tr>
<td>Alternate:</td>
<td>North Red Parking Lot (A Lot)</td>
</tr>
</tbody>
</table>
7. Building Warning Systems
List communication devices in building used to notify occupants of emergencies.

<table>
<thead>
<tr>
<th>Device</th>
<th>Location</th>
<th>Coverage Area</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fire Alarm(s)</td>
<td>All Floors</td>
<td>All Floors</td>
</tr>
<tr>
<td>UNL Alert System</td>
<td>All Employees (potentially)</td>
<td>All Employees and Tetrad</td>
</tr>
</tbody>
</table>

8. Secure or Hazardous Locations
List locations in building that should remain secure and not used as refuge due to critical or hazardous operations, or that may be of importance to emergency responders in the actions that they may take.

<table>
<thead>
<tr>
<th>Location</th>
<th>Critical or Hazardous Operation</th>
</tr>
</thead>
<tbody>
<tr>
<td>Room 121 in pilot plants</td>
<td>Chemical storage</td>
</tr>
<tr>
<td>Room 128 Pilot plant shop</td>
<td>Acetylene torch</td>
</tr>
<tr>
<td>Other building hazards as indicated by door placard system</td>
<td>Biological, chemical, compressed gas</td>
</tr>
</tbody>
</table>

Evacuation
(Fire, Hazardous Materials Release)

- Assist in evacuation if the fire alarm sounds.
- In the event of an evacuation, gather your personal belongings quickly (purse, keys, cell phone N Card etc.) and proceed to the nearest exit.
- Do not use the elevator.
- Move away from the problem, use alternative exits.
- Help those who need assistance.
- Report the location of those unable to evacuate to first responders.
- Be ready to be guided by additional instructions.

Ambulance

- **911, 2-2222, or 402-472-2222**
- Give exact location where ambulance is needed.
- Give brief description of emergency, including: number of victims, conscious/unconscious, breathing on their own, and CPR in progress.
- If a heart condition is suspected, be sure to advise the dispatcher. AED defibrillators are located near the elevators on first and second floors.

Notification

- Notifications about serious incidents on campus are sent using the following methods when available:
  - UNL Alert (unlalert.unl.edu)
  - UNL main Web site: unl.edu
  - Campus radio KRNU 90.3
  - Social, Public and private media

- If you receive a UNL Alert, please share the information immediately.

Tornado

Tornado Watches and Warnings are issued by the National Weather Service when the probability exists that a significant threat could develop over a wide area. Warnings are issued for much smaller areas and periods of time than Watches.

**Tornado Watch** means that conditions are favorable for tornadoes to form. Be alert to weather conditions and announcements.

**Tornado Warning** means that a tornado has been sighted or radar indicates rotation in the clouds. TAKE SHELTER! Advise other to do the same.

In the event of a National Weather Service issued tornado warning:

- UNL Alert will be activated
- Lancaster County will sound sirens based on confirmation of a tornado
  - University personnel are directed to seek shelter for one or more of the above
  - It is not safe to leave the shelter until local radio and television stations announce that the warning has expired.
- Where available, the University may provide supplemental notification tornado warnings through one of the following methods:
  - Amplified voice announcements over the public address system
  - unl.edu and social media

More information about emergency procedures: [http://emergency.unl.edu](http://emergency.unl.edu)
Building Emergency Personnel should:

- Take charge in assisting building occupants to follow appropriate procedures for all building alarms or incident alerts
- Be aware of your surroundings. Know your floor layouts. Know where building exits are located. Know alternate routes to reach exits. Know where you can shelter in place.
- Be flexible, adapt to the situation when involved in an incident.
- Provide building occupants general information about evacuation and shelter-in-place movements.
- Know how to report an incident in your building.
- Assure that persons with disabilities have the assistance they may require during an incident.
- Sign up for UNL Alert to receive incident alerts via email and text messages.

Call University Police
- 2-2222 (Campus Phone)
- 402-472-2222 (Cell Phone)
- 911
